

Photos of a Mexican Drug Lord's home after being Raided.

A few more like this, and we won't be losing the war.

Yes, That is cash piled on that table in the background!

Just a small collection of guns - these people are not really dangerous at all.....

Gold-plated collector's guns.

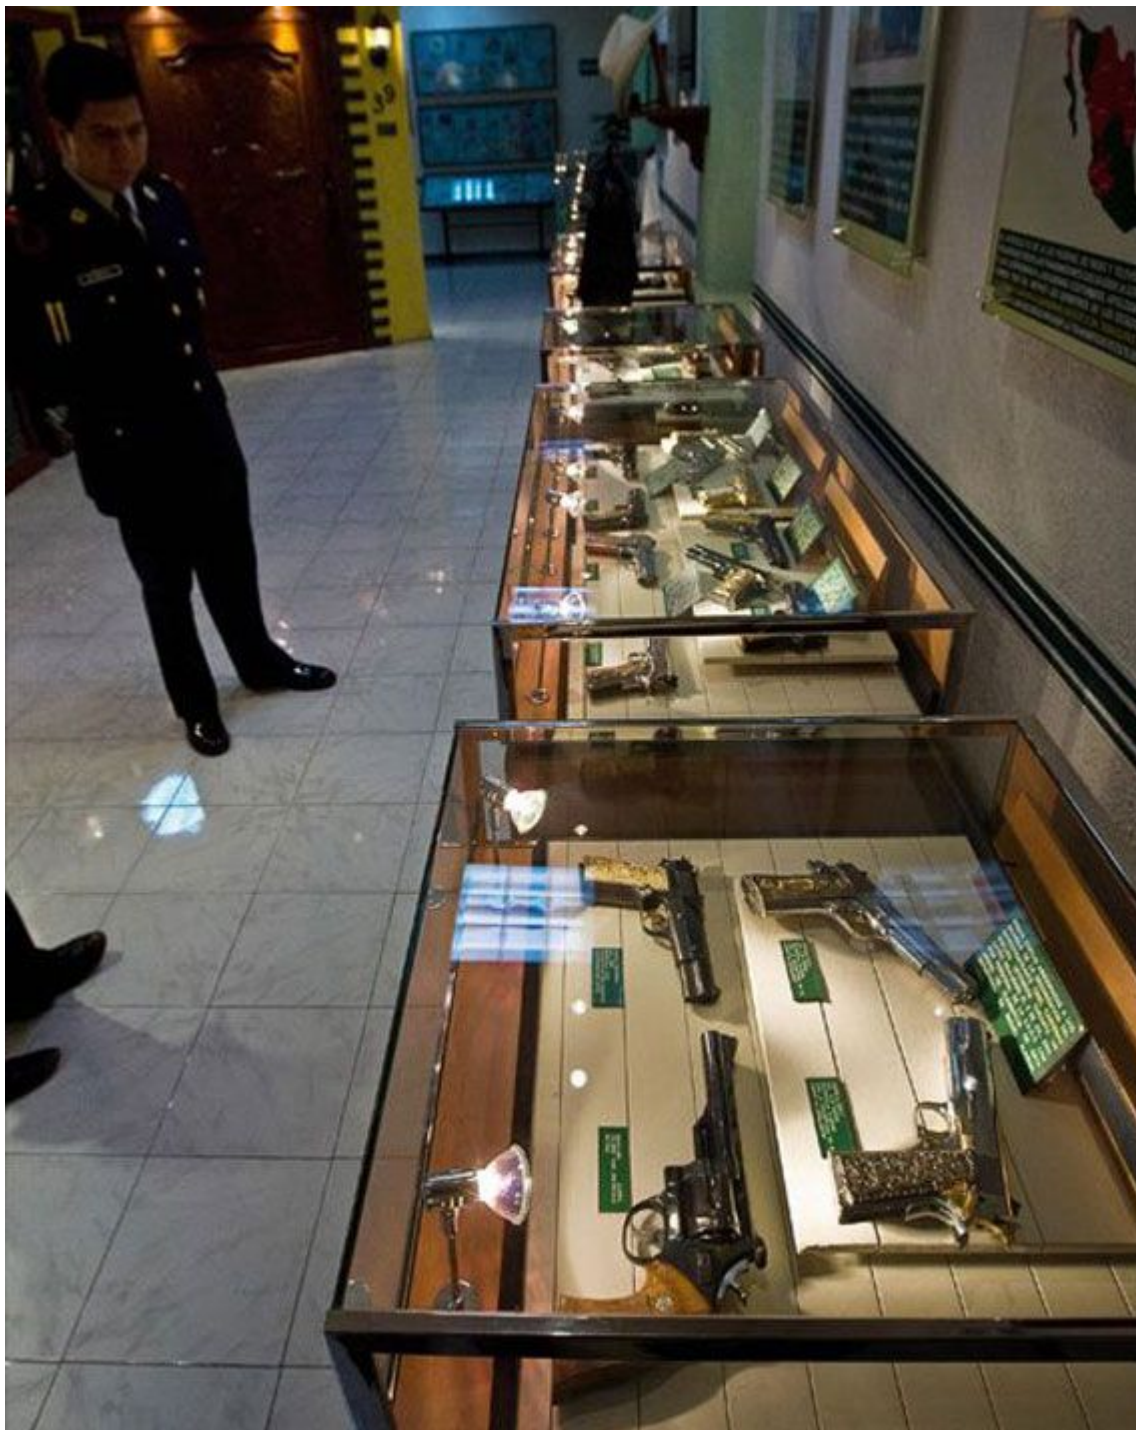

Gold and Titanium 45 Caliber semi automatic pistols - they found 16 like this

Go and kill in the name of the Lord my son! There was a matched pair of these found.

357 Magnum semi automatic with solid gold grips.

This guy had a better gun collection that most legitimate museums.

Just a quaint little villa in the hills - Drug money bought it all!

Man made cave and hot tub inside the home

A collection of exotic animals, cared for in the grandest fashion

8 Lions were on the property

A very rare White Tiger

The back yard pool

Exotic art collection - some of which was illegal to own - some stolen

More guns than you could ever imagine!

This pile of cash before it was counted was estimated to be approximately 18 Billion Dollars!
After it was counted it turned out to be a little more than 22 Billion Dollars!

From another angle

Guns were hidden all over the house, along with ample ammo, just in case of trouble.

Stacks of cash were found in every nook and cranny.

This case filled with 100 dollar Bills, no doubt headed out to make another drug buy, perhaps from the Colombians.

18 plastic bins filled with 100 dollar bills were found...

Another cabinet stack tight with cash - all 100's.

Each of these stacks of 100's holds \$250,000 (a quarter of a million dollars)! They also had millions in Columbian money and Mexican Pesos, although they preferred American dollars for the most part.

There were even stacks of Chinese money found in one closet.

More Gold machine guns and pistols - most were never fired, just held for collection value.

After removing the valuables, they burned it all down!

The money and valuables found in this one house alone, would be enough to pay for health insurance for every man woman and child in the USA for 12 years! There are believed to be approximately 27 more of these houses in Mexico alone, not to mention the ones in other countries who are enriching themselves in the drug trade. These people have so much money, they make the Arab oil sheiks look like welfare recipients. Their money can buy the best politicians, the best cops, the best judges, whatever they need - they just throw down stacks of cash and it is theirs. This is why the drug problem is so difficult to fight.
